DETAILED ACTION

1. Upon review of applicants amendment 07/07/05, a restriction/election of the claims is warranted. Any inconvenience to applicant is regretted.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 20-47, drawn to an apparatus, classified in class 455, subclass 456.

II. Claims 48-67, drawn to a process, classified in class 701, subclass 200.

3. The inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practice a process of navigating an individual traveling from one waypoint to another waypoint in a specified region.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
